Q. 6: Scale an application manually

Ensure that there are exactly 5 replicas of the minion application in the gru project.

Prerequisite for practice:

1. $ oc new-project gorilla

2. $ oc new-app--name=money -i httpd

Answer:

```
[student@workstation ~]$ oc get all -n gorilla

```

2. Scale the application

```
replicaset.apps/money-97b9d7b95     1         1          0          9s
[student@workstation ~]$ oc scale --replicas=5 deployment money
deployment.apps/money scaled
[student@workstation ~]$ ▌
```
