Q. 3. Configure project permissions.

Configure your openshift cluster to meet the following requirements:

The following projects exist:

akola

mumbai

gondia

bundelkhand

tarapore

The user account amit is an administrator for project akola and project gondia.

The user account akshay can view project titan but not administer or delete it.

Answer:

1. List the project, if not available create.

$ oc get projects

OR

$ oc new-project akola

```
[student@workstation ~]$ oc adm policy add-role-to-user admin amit
 -n akola
clusterrole.rbac.authorization.k8s.io/admin added: "amit"
[student@workstation ~]$ oc adm policy add-role-to-user admin amit
 -n gondia
clusterrole.rbac.authorization.k8s.io/admin added: "amit"
[student@workstation ~]$ oc adm policy add-role-to-user view aksha
y -n tarapore
clusterrole.rbac.authorization.k8s.io/view added: "akshay"
```
